For Pumping & Aerial Apparatus Available***

Winter Catalog 2016

Welcome To Knightlite Software

Serving the Fire and EMS Community For 20 Years

Why We Do What We Do

At **Knightlite**, we believe that every Firefighter, EMT, and Paramedic deserves the best possible opportunity not only to succeed, but to excel and reach a level of excellence. Those who work in the Fire Service and EMS are the very best who walk among us. Their dedication and commitment are a tribute to their noble, time-honored calling.

If you are preparing for a certification exam, you are faced with a massive amount of information that needs to be processed immediately and rapidly applied. Promotional exams can be even worse. You are provided a lengthy reading list, each book several hundred pages long, and you are expected to be able to answer any question that may be derived from any of these volumes. This daunting task increases stress, does little to build confidence, and deters learning.

The traditional learning model of reading a textbook and attending a class, lacks efficient practicality, especially with all the other activities you have going on in your life. **You need an edge, something that can support you, as well as challenge you, help you relax, and build up your confidence.**

Here at Knightlite, we are Firefighters, EMTs, and Paramedics, and we know what you are going through. Since 1995 we have invested a great deal of time, money, and effort designing software for real-world use.

Our software is easy-to-use, is fun to use, and as thousands and thousands of customers have discovered, the most essential tool they have. It helps you pinpoint your weak points so you can focus on what you don't know, rather than wasting time on information you have already mastered. The software is not one dimensional, and does not employ the one-size-fits-all type of approach. Everyone is different, and we designed our software around that premise. You use the software in the way that is comfortable for you. To help you understand what the software can do, we have created video tutorials to help our customers get the most out of our products.

Our dedication to EMS and to the fire service, and our passion for excellence is our catalyst for designing the best study software on the market today. We have set extremely high standards for ourselves, and our customers become the beneficiaries of these efforts. Our success is a direct result of our customers success. Download one of our free demo versions, and start preparing today.

TestMaker Upgrade

Optional TestMaker Upgrade Module \$19.95

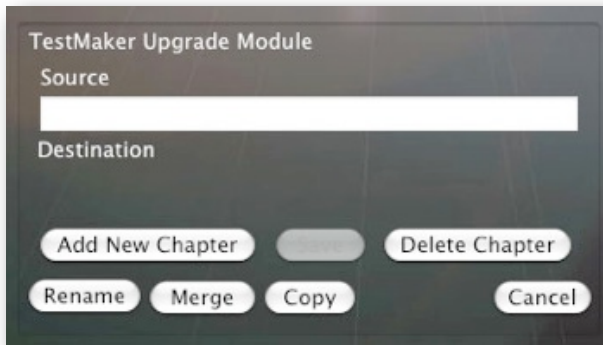

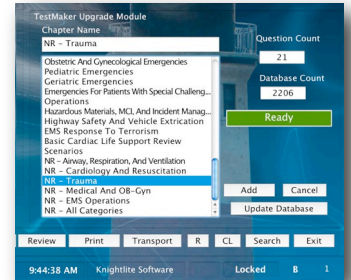

A Great Tool For Instructors And Training Officers

The optional TestMaker Upgrade Module gives the user the ability to add an UNLIMITED NUMBER of additional chapters to the software. These are empty chapters and do not contain any questions. Instructors can pick and choose from the existing database of questions to make a very customized test, or they can write their own questions. You can also add pictures and even video to any question as well. Create an unlimited number of chapters using the Chapter Panel.

You can create new chapters, merge existing chapters, change the names of chapters, and add the questions of one chapter to the questions of another. The TestMaker is a great tool for instructors and training officers, and it will save you hours and hours of time.

Features:

- 1) Unlimited Number Of Tests Can Be Created.
- 2) Unlimited Number Of Chapters That Can Be Created Using The Chapter Panel.
- 3) The Ability To Add Images And Video To Questions.
- 4) The Ability To Print Out Images With The Questions.
- 5) Pick And Choose Questions From The Existing Database To Create A Very Customized Test.

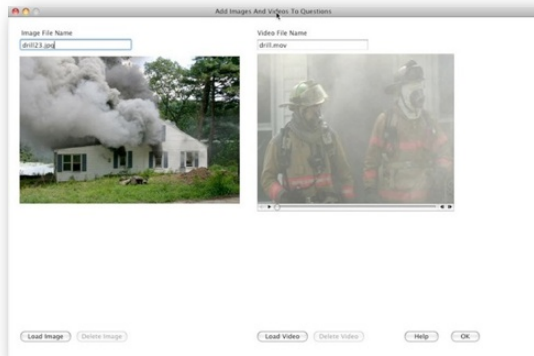

The Chapter Panel on the main Table of Contents window lets you create new chapters and add them to the list of already existing chapters. You can rename chapters, merge them, copy questions to another chapter or delete chapters.

The TestMaker Upgrade Module allows you to create custom tests with incredible speeds. This handy tool just got a whole lot faster in the new Code III versions of our software.

Navigate to the question you would like to export, select your target chapter, and click add. Your done! Navigate to the next question and click add again. You can quickly create a customized test in which you choose the questions in the order you want them in. It takes literally a about 1 second to create a question.

The TestMaker Upgrade Module also allows you to add images to any question as well as video. Windows uses AVI files, while Mac version use MOV files.

If you need to create a custom multiple choice test in a hurry, there is nothing easier than Knightlite's TestMaker Upgrade Module. Your time is valuable, and Knightlite makes it easier for you by making the test creation process painless and incredibly fast. There is just nothing better available for the Mac and Windows PC.

\$59.95

[Ace Your EMT Intermediate 85 or 99 Exam](#)

[DVD](#)

Ace Your EMT Intermediate 85 Practical is made up of 6 stations, and offers 1 hour of instruction. Below is a list of the included stations:

Ace Your EMT Intermediate 99 Practical is made up of 12 stations, and offers 110 minutes of instruction.

\$39.95 1985 Curriculum

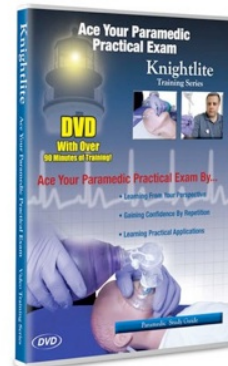

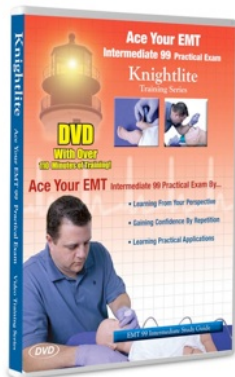

\$59.95 1999 Curriculum

[Fire Fighter I Knots](#)

The DVD is divided into two sections. In the first section we cover the parts of the rope and knot. We then show you how to tie each of the eight NFPA-required knots, complete with close-up shots of each knot being tied, not from the instructor's perspective, but rather from your perspective. It is much easier to learn when you are presented instruction in the same perspective that you will be tying the knots.

\$26.95

[Ace Your Paramedic Practical Exam](#)

[DVD](#)

Ace Your Paramedic Practical is made up of 11 stations, and offers over 90 minutes of instruction.

Knightlite TestMaker 5.0

Only \$49.95

Creating a multiple choice test that can be printed out has never been easier with Knightlite TestMaker 5.0. Originally created for Whiteman Air Force Base, TestMaker is a reasonably priced, powerful tool for teachers, instructors and students. It can be used as a teaching tool and as a study tool. Tons of features in an easy to navigate interface, that has helped train thousands of Firefighters, EMTs, and Paramedics since 1996.

Features:

Create an unlimited number of topics, with an unlimited number of questions.

Create a terminology library and create terminology tests.

New Review Mode - Review the questions and correct answers without seeing the incorrect answers.

Full Chapter Review Mode can read questions, correct answers, and any notes in a narrative manner.

Print out the chapter review and use it as a study tool or a review package for students.

Built-in spell checker, with check-as-you-type spell checking.

Add images, photos, and QuickTime (TM) video to any question.

New Teach Mode - Lets you add information and rationale behind the question.

Notes Palette allows you to create hints, page references and other information.

Software can read questions out loud to you.

Automatically saves your last session. Save multiple sessions.

Keeps track of the questions you incorrectly answer, and displays them in a window.

Allows you to clone sessions, so you can return to where you left off later.

Copy, merge, and rename any of your chapters. One-click delete of chapters.

Easily copy specific questions from one test to another, to create a specific exam.

Print tests out in a variety of ways, including answer sheets and correction keys.

Print flash cards.

Print custom terminology tests.

Print terminology glossaries.

Keeps track of your high score.

Create random tests from a single chapter, multiple chapters or all chapters.

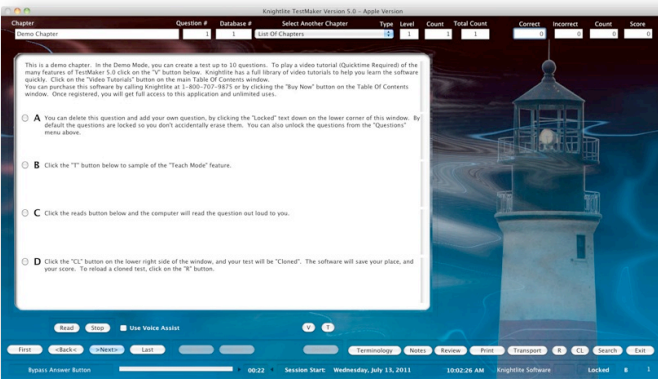

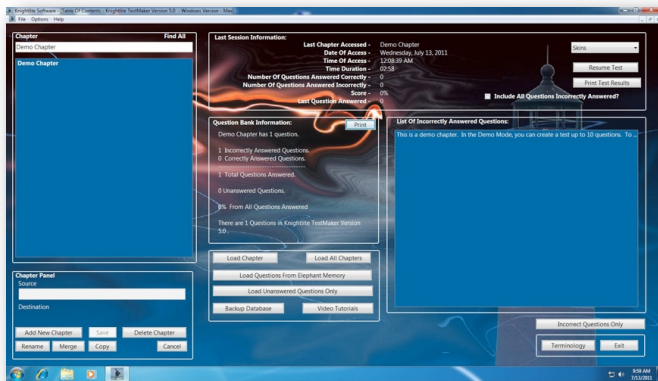

New Full Screen Mode - Fits any resolution screen, view test in full screen.

18 graphical skins - Change screen and printer fonts.

Database is easily edited.

The fastest way to create multiple choice tests.

Lots of other great features!

About The Code III GUI

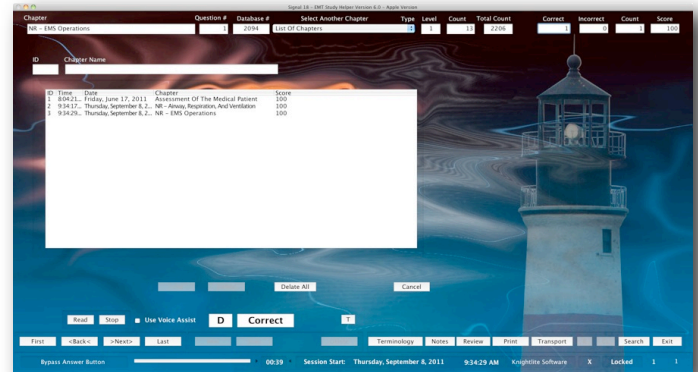

The Software works in full screen in both Windows and Mac Versions. Screen resolution independent.

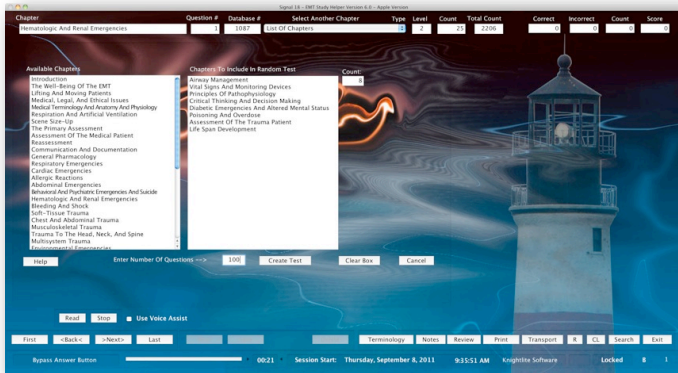

The Table of Contents Window gives you easy access to all chapters. On the right it displays all the questions you incorrectly answered so you can concentrate on what you are weak in, without wasting time on material you have already mastered. The center panel displays your scores and progress.

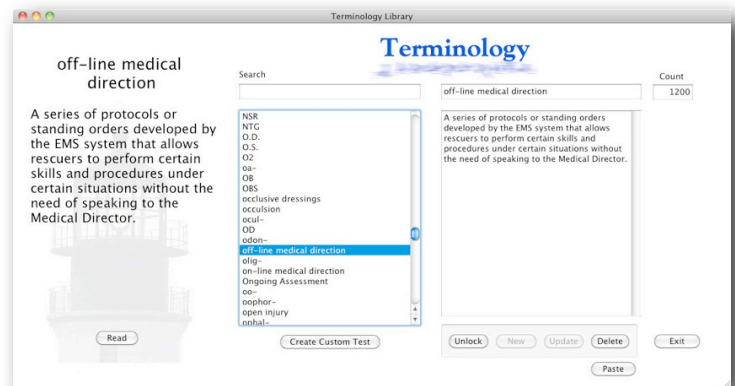

The Testing Window has made it easier than ever to move through the questions with the least bit of effort. Use the navigation buttons at the bottom left of the screen to navigate the database of questions. Select an answer and the software will automatically score your test and display whether you answered the question correctly or incorrectly.

The ability to Clone a session. Cloning a session allows you to take a snap shot of your session and come back to it later. This new version allows you to save multiple sessions to your hard drive. You can also sort these sessions by ID number, date, chapter or score. Click on a chapter in the list box and the session will load.

The software also lets you create multiple choice tests from random chapters. Double click on a chapter in the left list box and it will be added to your custom test. Type in the number of questions, and click Create Test. The software will automatically create a random test made up of the chapters you select and the number of questions you entered. box and the session will load.

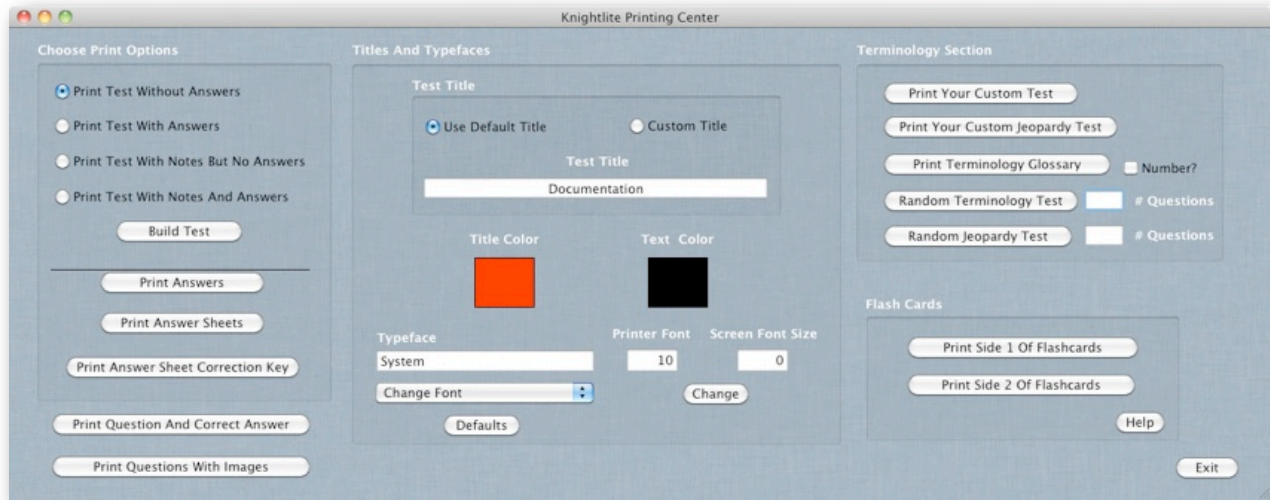

Many titles have extensive terminology sections where you can print out glossaries. terminology tests, custom vocabulary tests, and much more.

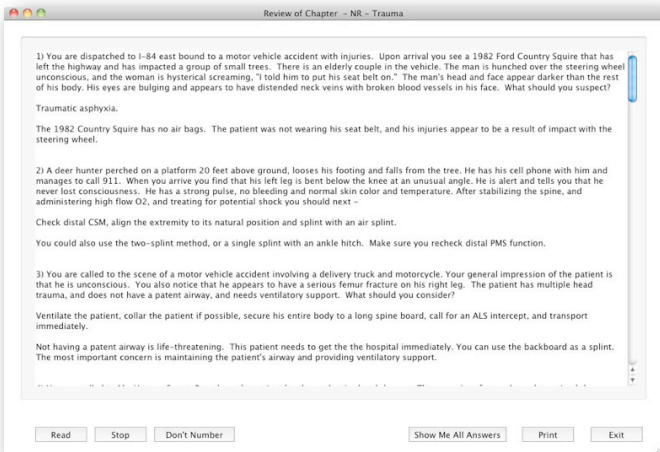

Download Free Demos - www.knightlite.com - Call Toll Free 1-800-707-9875

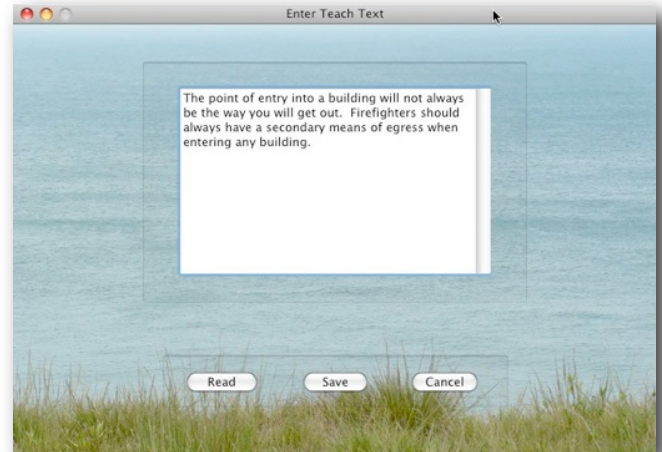

About The Code III GUI

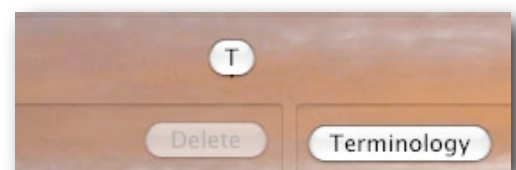

Knightlite allows you to print out your questions in a variety of ways. Print tests with answers, without answers, with answers and notes, and with notes but no answers. You can print out just the answers, answer sheets, and answer sheet correction keys. You can also change the type face and type color. You can print out your terminology test, create a custom Jeopardy-style test from your vocabulary test. Print a terminology glossary or random terminology tests. You can even print out flashcards so you can study when you are away from your computer.

New Chapter Review feature allows you to study just the question and the correct answer. You can have the computer read the question out loud to you, or you can print out the chapter so you can review the material while you are away from your computer. You have the choice of numbering the questions, or omitting the question numbers. This is a great new feature to help you quickly review the important information.

Knightlite has also added a Teach Mode to our new software. If a question requires an explanation or more information a "T" button will appear on screen just above the navigation area of the window. Click on the T button and your computer's native voice will read the information to you. You can edit the contents of the Teach Mode by unlocking the questions and clicking on the "Teach" button.
